Experiences

🏠 Mo Works — Fullstack Developer (internship)

📅 May 2026 - July 2026

NextJS Strapi Wordpress AWS Lightsail Management

Australian creative agency specializing in branding, marketing, and the development of web and mobile applications

- Direct relationship with the client: needs assessment, design, and implementation
- Development of the company's new website in close collaboration with the designers
- Supporting two interns as they develop their skills and helping them integrate into the workplace

🍷 AB Tasty — Junior Fullstack Engineer (apprenticeship)

📅 Sept 2024 - Sept 2026

React PHP GraphQL Python Cypress Playwright

Development of a tool that enables corporate marketing teams to take control of their websites, conduct A/B tests, and provide relevant product recommendations

- Retrieving, displaying, and determining the severity level of errors and recommendations from the JavaScript tag
- Automated generation and display of AI-powered suggestions based on user data
- Diagram of the complete architecture of the JavaScript tag compilation process, from the client to the use of the tag on the website

🌊 Jexlprod — Fullstack Developer (apprenticeship)

📅 Sept 2022 - Aug 2024

React PHP SQL Figma

Development of a platform that fosters friendly gatherings centered around sociocultural events

- Development of project specifications, formulation of technical requirements, and architectural design
- Design and Development of a WebSocket-Based Instant Messaging Application (React, PHP)
- UI/UX Design for a Real Estate Management and Fee Calculation Platform

Featured Projects

🌐 Transat

React Native Tailwind Go Figma

An iOS and Android app that centralizes campus services and fosters social connections.

Learn more: github.com/plugimt/transat-app

🌿 La Palme Verte

React Tailwind Notion Figma

Website, blog, and photo gallery for a student scuba diving club. CMS managed on Notion via its API.

Visit the site: la-palme-verte.vercel.app
